Glycoprep Kit-C Double Colonoscopy Preparation Instructions

For a successful colonoscopy, it is very important that your bowel is thoroughly cleansed so that the lining of the bowel can be clearly seen. The preparation aims to clear your bowel so that by the morning of the procedure you are producing a clear or yellow return. A poor bowel preparation may result in the procedure being rescheduled or repeated. The preparation will initiate episodes of diarrhoea within 30 mins of commencement but can take as long as 6 hours to commence.

7 DAYS prior to your colonoscopy

- Cease Panadol and anti-inflammatory drugs
- Follow your Doctor's advice regarding ceasing prescribed blood-thinning medication

3 DAYS prior to your colonoscopy

- Stop all iron, fibre supplements and anti-diarrhoeal medications
- If you have a history of constipation or have previously had inadequate bowel prep, please commence a non-fibre laxative such as:
 - Movicol (1 or 2 Sachets a day)
 - Senna tablets (2 per day)
 - Epsom salts (1-2 teaspoons per day)
- Commence Low Fibre diet and continue drinking adequate water

2 DAYS prior to your colonoscopy

At 7am – Consume food across this day following the Low Fibre Diet. Premix and refrigerate the Magnesium Citrate according to the instructions on the packet and Glycoprep Kit C Sachet in 3L of water.

At 4pm – Self-administer the 3 Bisacodyl tablets and consume the Magnesium Citrate solution

At 6pm – Have dinner according to the Low Fibre Diet

After dinner – **Commence clear fluids only as no food is to be eaten from this time until your procedure.** Clear fluids consist of: Water, apple juice (not cloudy), clear broth, strained soup, electrolyte replacement drinks, cordial, soft-drinks, barley sugar, ice-blocks and jelly (Note: these must not contain any red or purple colourings, dairy products or solids).

At 8pm - Commence the first 2L of the Glycoprep at a rate of 1 small glass every 20 minutes. You must consume the entire litre over a 3 hour period. Ensure you maintain high water intake over this time.

You may consume butterscotch or barley sugars whilst drinking the prep.

If you experience tenderness around the bottom, you may apply lanolin.

If you experience nausea, pause drinking for 30 minutes and then recommence.

1 DAY prior to your colonoscopy

At 7am – Continue on clear fluids only

At 7.30am – Commence drinking final 1L of Glycoprep solution over the next 1.5 hours

At 4pm – Premix the final sachet of Glycoprep Kit-C in 3L of water and refrigerate.

At 6pm - Commence drinking the first 2 litres of Glycoprep at a rate of 1 small glass every 20 minutes. You must consume the entire 2 litres over a 3 hour period and are encouraged to continue drinking water **until 4 hours prior to your procedure.**

****You must be fasted from 4 hours prior to your appointment time****

The preparation timing varies depending on your admission time for your procedure

Admission Time is 6am-9am

DAY OF PROCEDURE

12.30am - Consume final litre of Glycoprep solution at a rate of 1 glass every 20 minutes

2am - You must fast from this time, or beforehand. Do not consume food, drink, smoke cigarettes, vape, chew gum or eat lollies from 2am.

5am - You must fast from this time, or beforehand. Do not consume food, drink, smoke cigarettes, vape, chew gum or eat lollies from 5am.

Admission Time is 12.01pm onwards

DAY OF PROCEDURE

6.30am - Consume final litre of Glycoprep solution at a rate of 1 glass every 20 minutes

8am - You must fast from this time, or beforehand. Do not consume food, drink, smoke cigarettes, vape, chew gum or eat lollies after 8am.

Information on Diabetes Management:

- Prior to your procedure, please follow the advice provided by your usual treating Doctor to manage your diabetes medication.
- It is advisable to check your blood-glucose levels regularly.
- While consuming clear fluids, you may drink apple juice (not cloudy) in order to maintain your blood-glucose levels.

Key points to remember prior to your arrival:

- If you are unable to complete the bowel preparation, your bowel return is brown in colour or if it contains any solid matter please contact nursing staff at the Montserrat Hospital where your procedure is scheduled between 7am-7.30am. Visit www.montserrat.com.au/contact/ for a list of Montserrat locations and contact details.
- Arrive **60 mins prior** to your appointment time – this will be confirmed over the phone by our team 1-2 days prior
- Wear comfortable clothing
- Arrange your personal transport home: You must be accompanied by a responsible adult and if not arranged prior to your admission, we may cancel your procedure.

Further Information

We encourage you to read the 'Patient Information Booklet' which outlines your rights and responsibilities as a patient for further information and advice.
